## Help All Nations students feel the warmth of God's love!

Dear friend of All Nations

**At the start of the 2018-2019 academic year there are over 100 students from TWENTY-SEVEN countries doing cross-cultural mission training courses with All Nations!**

After their training is complete we look forward to sending out many faithful men and women of God from All Nations to all nations! However, before we send them out we're asking you to help them 'feel the warmth of God's love' - **I'm writing to ask if you can help us purchase a hot water and heating system!**

All Nations urgently needs to replace the college's oil-fired boilers, which are now well over 20 years old. The current boiler system breaks down frequently, particularly during periods of cold weather. Last winter many of our students really struggled to get warm when the system broke down and they had to endure a number of days without any heating or hot water. **PTO** 

Please consider making a gift today to help us purchase the new boiler system - and help All Nations students feel the warmth of God's love!

**All Nations  
urgently needs  
a new boiler system**  
**For this we need to  
raise £400,000**

*With your help we  
believe this is possible!*

Our plan is to install a new gas boiler system, which can be more easily controlled in all of the different parts of the All Nations campus, and which will be much more effective and efficient (95% heat-efficient in fact, whereas the current system is rated at just 65% efficient). However, this new system will come at a significant cost, and the estimated price tag is £400,000. Our hope and prayer is huge, but we know that God is in charge and we depend on Him. We also know that **every donation will make a very big difference!** Already some generous friends of the college have given almost £9,000 to help pay for the new system.

Andy in the college boiler room!

It cost £5,000 to dig the ditch across the college courtyard to the boiler room!

Originally we hoped to install a new system by mid-September, before the start of the 2018-2019 academic year, however the work has been delayed as a result of complications with the routing of the gas pipe and negotiations to reduce the cost. **We hope to install the new system during the college's Easter vacation in March-April 2019.**

Work will need to be done in different stages. The college has already paid £17,000 for design and planning, but we will need to spend an estimated £15,000 on pipes, £25,000 on a temporary boiler, £35,000 on removing the old system, £190,000 on fitting the new system, and so on...

**Please would you consider making a gift today to help us purchase the new boiler system? You'd also be helping All Nations students feel the warmth of God's love!**

In Jesus' Name,

**Andy Dipper**
