Global Transitions

## Modules

In this advanced vocational training, you will learn to lead coaching processes in an intercultural context. You will advance your intercultural competency through self-reflection, new insights and practical, supervised experience. The course consists of six modules.

### Module I

Foundations of intercultural communication, cultural dimensions, conversation building, rapport and trust building, pacing and stimulating interventions in coaching.

### Module II

Basics of Coaching, the Three Pillars of coaching, the coach as a person, their role and responsibility.

### Module III

Systemic Coaching in an intercultural setting, circular questioning, building hypotheses, reframing.

### Module IV

Creative interventions, methods and interactive approaches in intercultural coaching.

### Module V

International teams, test methods, the inner team of the client, *Tuckman's Phases of Team Development*, conflict management and mediation.

### Module VI

Intercultural case studies, developing your own coach profile, documentation of the coaching process, colloquium.
