This one week course is to enable Christians to better understand the roots and realities of Islam and respond in a way that is Biblical, sensitive, informed and bold.

## Arts and Trauma Healing January 2018

This blended course is a partnership between All Nations and GIAL, and fosters a holistic, interactive approach to engaging Scripture in the healing process for people who suffer from the mental, emotional, and spiritual effects of trauma. It combines biblical truths with basic mental health principles expressed in ways that can be easily translated into other languages.

### You will learn to

- Address cognitive beliefs and emotions damaged by trauma, both in your own life and in the lives of others.
- Use participatory learning methods to train local church leaders in ways that help them to become effective care-givers.

In particular, this course will emphasize the importance of performing and visual arts in trauma healing.

This is a "blended" course, with readings and assignments to be completed online prior to a 2 week intensive course of participatory classes at All Nations.
